

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	31 January 2025
Team ID	
Project Name	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Project Title:
Visualizing Housing Market Trends: An Analysis of Sale Price and Features Using Tableau

Goal:
To analyse housing sales data and create interactive dashboards and stories that help users understand housing market trends and the factors affecting house prices.

1
Define your problem
Clearly articulate the problem you're trying to solve. Keep it concise and user-focused.

Housing datasets are large and difficult to analyse manually.

It is hard to identify the factors influencing house prices.

Buyers, sellers, and real estate professionals need an easy way to understand market trends.

Interactive visualisations can improve decision-making and provide clear insights.

Step-2: Brainstorm, Idea Listing and Grouping

2

Define your prioritization criteria
List and define the criteria you'll use to evaluate and prioritize the ideas.

Brainstorm Ideas

House Price Analysis	Sales Trend Analysis	House Age Distribution
Renovation Impact	Bedroom & Bathroom Analysis	Floor-wise Analysis
Average Sale Price	Interactive Dashboard	Tableau Story
Responsive Website (Dewi Bootstrap)	Location-wise Analysis	Advanced Forecasting

Prioritization Criteria

 1. Impact (High / Medium / Low)

 2. Feasibility (Easy / Moderate / Hard)

 3. Effort (Low / Medium / High)

 4. User Value (High / Medium / Low)

3

Prioritize
Evaluate ideas based on your criteria and place them in the matrix.

	Impact		
	High	Medium	Low
Low (Easy)	Average Sale Price	House Age Analysis	Floor-wise Analysis
Medium (Moderate)	Interactive Dashboard	Bedroom & Bathroom Analysis	Tableau Story
High (Hard)	Location-wise Analysis	Renovation Impact	Advanced Forecasting

High Impact, Easy to Implement

High Impact, Moderate Effort

Medium Impact, Moderate Effort

Low Impact, High Effort

Step-3: Idea Prioritization

1

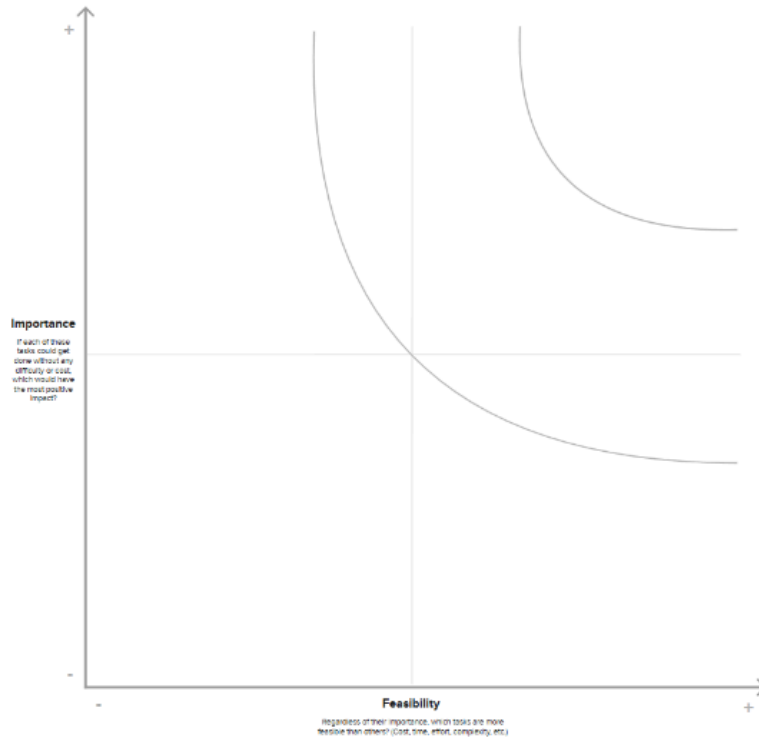

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

30 minutes

TIP

Participants can use their cursor to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer hitting the H key on the keyboard.

2

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

- Share the mural**
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.
- Export the mural**
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

- Strategy blueprint**
Define the components of a new idea or strategy.
