

Project Design Phase-II Data Flow Diagram & User Stories

Date	26 july 2026
Team ID	
Project Name	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: (Simplified)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Analyst (Desktop User)	Data Import & Preparation	USN-1	As an analyst, I can import housing datasets (CSV/Excel) into Tableau for analysis.	Data loads successfully and is visible in Tableau workspace.	High	Sprint-1
		USN-2	As an analyst, I can clean and format data (remove duplicates, fix missing values).	Cleaned dataset is validated and ready for visualization.	High	Sprint-1
		USN-3	As an analyst, I can merge multiple data sources (price, features, location).	Merged dataset displays unified fields without errors.	Medium	Sprint-2
Analyst (Desktop User)	Visualization Creation	USN-4	As an analyst, I can create scatter plots and bar charts to visualize sale prices vs. features.	Visualizations render correctly and update dynamically.	High	Sprint-1
		USN-5	As an analyst, I can apply filters (city, price range, property type).	Filters adjust data views instantly.	High	Sprint-1
		USN-6	As an analyst, I can save and publish dashboards to Tableau Public.	Dashboard is accessible via shared link.	High	Sprint-1
Customer (Web user)	Dashboard Interaction	USN-7	As a customer, I can view interactive dashboards showing housing trends.	Dashboard loads correctly and responds to user input.	High	Sprint-1
		USN-8	As a customer, I can download summary reports of housing trends.	Report downloads successfully in PDF format.	Medium	Sprint-2
Administrator	User Management	USN-9	As an admin, I can manage user access and permissions for Tableau dashboards.	Admin can add, edit, or remove users.	High	Sprint-1
