

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	31 January 2025
Team ID	
Project Name	
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Data Import & Preparation	Import housing datasets (CSV/Excel) into Tableau for analysis Clean and format data (remove duplicates, fix missing values) Merge multiple data sources (price, features, location)
FR-2	Visualization Creation	Create scatter plots and bar charts to visualize sale prices vs. features Apply filters (city, price range, property type) Save and publish dashboards to Tableau Public
FR-3	Dashboard Interaction	View interactive dashboards showing housing trends Download summary reports of housing trends (PDF format)
FR-4	User Management & Access Control	Manage user access and permissions for Tableau dashboards Monitor dashboard usage and analytics

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Dashboards should be intuitive, easy to navigate, and accessible to non-technical users.
NFR-2	Security	Ensure secure data handling and user authentication for access to dashboards.
NFR-3	Reliability	System should consistently load and display data without errors or downtime.
NFR-4	Performance	Dashboards should load within 3 seconds for standard datasets and respond quickly to filters.
NFR-5	Availability	Dashboards should be available 24/7 with minimal maintenance interruptions.
NFR-6	Scalability	System should support larger datasets and additional users without performance degradation.
